Here is a draft schedule to do a supplemental proposed asbestos SNUR to final SNUR. While it might seem like a lot of time to get to the final rule effective date of Oct 30, 2109, it's actually a pretty tight schedule and assumes some pretty short review times for DDs, OPPT IO, and OCSPP IO, which may not be realistic. Thanks Lea for putting this together, and we should all meet to discuss before sending up to OPPT/OCSPP IOs.
